Dear future bride & groom,

We invite you to celebrate
the most special day in your life
right in the heart of the nature,
in the middle of Transylvania!
You and your beloved guests will
enjoy an unforgettable experience,
indulge with unique gourmet
dishes made from local products,
and immerse in an untouched
countryside scenery.
We are looking forward
to building lifetime memories
together with you,

Ulrike, Jonas Schafer
and Valea Verde team

Making your special day truly unforgettable!

We are here to make your dreams come true. Though we host a large number of weddings at Valea Verde, we limit ourselves to only a few each year, to make sure that we can dedicate as much care and attention so that every detail goes as planned.

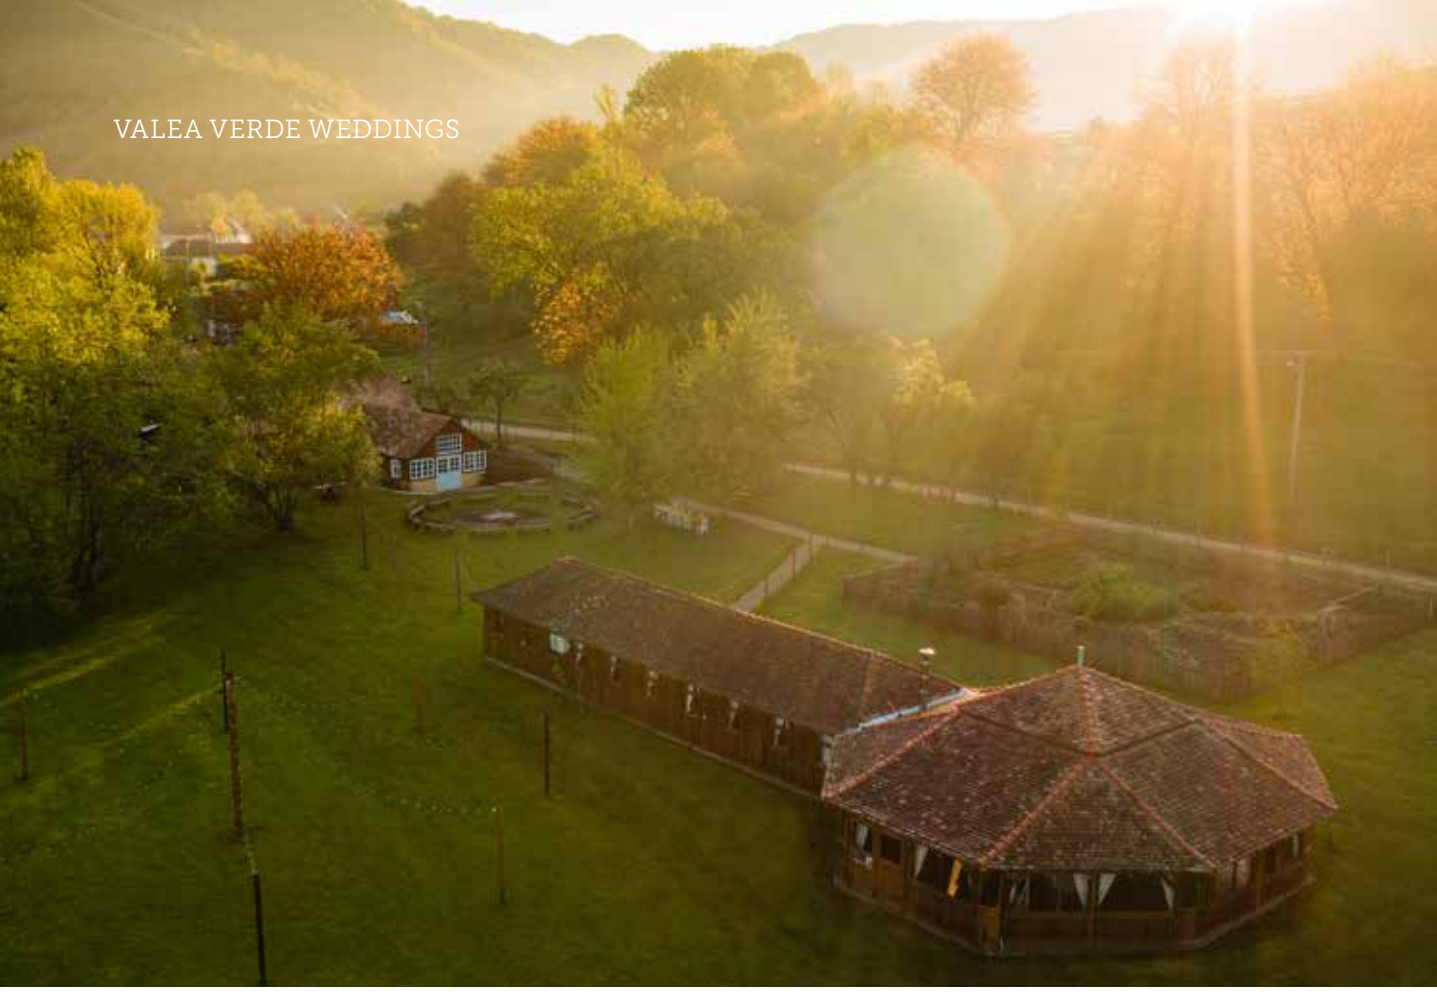
We can proudly say that, whilst we have hosted many successful private events like wedding, anniversaries, and baptisms, many of the couples who got married at Valea Verde are among our close friends...

What Marga and Pascal say about their wedding at Valea Verde

"We always love to remember our most special day, our wedding at Valea Verde. The Valea Verde team was there for us from the very beginning, to turn our wishes and ideas into reality. Enjoying a wonderful weather, we had our civil and religious ceremonies in the garden, followed by a reception with live chamber music, and a beautiful buffet in the idyllic Valea Verde scenery.

The food was a culinary delight, and the wines were matched perfectly. Valea Verde team spoiled our guests completely, and all our wishes got fulfilled. We got a fairytale wedding one usually sees on TV..."

Marga and Pascal got married at Valea Verde on 1st of August, 2015



In the middle of nature

OUR LOUNGE, THE GARDEN AND THE SURROUNDINGS

Weddings at Valea Verde are very much about experiencing and immersing in Transylvanian countryside.

Valea Verde Lounge, which seats up to 120 guests in two connected areas, is set in two hectares of landscaped gardens with dreamlike views of the Valea Verde Lake and surrounding hills and valleys.

The rolling hills, which define this heaven of bio-diversity, are open, with no fences intruding, and are a great contrast to the landscaped, but still authentic setting of Valea Verde garden, with its many different seating areas.

The Lounge is furnished with rustic long wooden tables, appropriate for six to twelve persons, long benches with backrests or, alternatively, high-back chairs.

A part of the Lounge is closed and features a catering kitchen as well as a wardrobe. It also has air conditioning and heating if needed.

The nearby lake offers another charming seating area, with sun beds and large umbrellas.

It has become a beautiful tradition to have civil and religious ceremonies under our ancient willow tree, which lends comforting shade. We can also set up a seating area for up to 120 persons in front of this natural altar.

Accommodation in carefully restored farm houses

We have spent many years renovating the most beautiful farmhouses Transylvania has to offer, and giving them a new lease of life, in which we can offer you accommodation.

You and your guests can enjoy four comfortable apartments in the main building, next to the Restaurant, our double rooms or entire holiday houses in the village, located at about 300-400 m away from the Valea Verde Retreat.

Please note that many of our rooms feature extendable couches for 1 extra person in the living room or bedroom.

Swimming, Massages, Horses, Yoga, biking and other activities

Apart from enjoying the wedding atmosphere, we offer several activities to guest coming to Valea Verde for this type of a private event.

Our lake awaits for swimmers and our massage therapists are ready for everyone looking for indulging.
The 7 horses in our stables and our 120 years old carriages will take you into charming places, and our Spa Cabin will be ready for all those in need of a sauna or a hot tub relaxation.

A unique experience

LOCAL PRODUCE CAREFULLY PREPARED

At Valea Verde we dedicate ourselves to cooking with fresh seasonal and local ingredients. Though this has lately became a more popular thing to commit to, few restaurants dedicate themselves as radically to this credo as we do.

We seek to bring to the table the best ingredients we can grow in our gardens or that are sourced from our selected network of farms and suppliers in the area.

The beautiful forests of Transylvania host a huge variety of wildlife and delicious produce. We love foraging wild plants, herbs and mushrooms, but the most spectacular edible treasures to be found are truffles – the black gold of the Transylvanian Wilderness! At our resort, you can eat the tastiest truffle dishes.

All food is cooked in the manner we deem most appropriate – slowly, braising, steaming, sautéing, grilling, sous-viding, or just serving particular ingredients raw.

Our aim is to respect the ingredients we cook with, create healthy dishes, and, above all, make delicious food full of flavor.

We love to create tailor made menu proposals based on the future couple's preferences. Let us know what you would like to savor on this special day, and we will do our best to bring everything to the table.

We serve wedding menus either as a buffet to offer a large variety of dishes, or as a seated seven course tasting menu - whatever is best for your party!

Please note that menu price of 60 € is the minimum consumption required.
